

sanctum

Pure Natural Therapy

MEN'S RANGE

These organic products were designed with the busy male in mind and offer a pure, no-fuss daily grooming solution. The six products in this range are infused with the masculine aroma of sandalwood and cedar wood essential oils and are quick and easy to use.

The stubborn toughness of the male skin causes different problems such as ingrown hairs, increased oil and shaving rashes. The Sanctum range is formulated to combat and repair the skin, while providing 2-in-1 body and face products. Adopting this natural simplified regime not only leaves you looking good but feeling good too.

This unique new certified organic and vegan men's range is now available in Canada from Abundance Naturally.
